## Okra [2022]

Okra Crack Mac is a lightweight software application whose purpose is to help you make use of a countdown timer in order to check out how much time you dedicate to different activities. You can also enable post-processing tasks when the countdown ends, such as shut down the computer or play a message or sound notification. Portable running mode The tool is portable which means you can deploy it on USB flash drives or other portable devices. You can run it on your system by simply opening the executable file (there's no setup included in the process). It does not store entries in your Windows registry so you can get rid of it using a simple deletion task. Simple looks Okra Cracked 2022 Latest Version automatically places a timer on your desktop which can be moved to the desired position. You can gain access to the program's features by right-clicking on the timer. Timer configuration settings The application offers you the possibility to start or stop the countdown timer and choose between several preset time values, namely 10 seconds, 5 or 25 minutes, or 2 hours. You can also alter the color of the timer by selecting between several options embedded in a wheel. You can make the utility show different notifications when the time is up, namely play a preset sound, display a custom popup message, restart or reset the timer, or activate the 'Pomodoro' or 'Pacemaker' technique. What's more, Okra helps you shut down or restart the computer, log off the current user, lock the workstation, or activate the standby or hibernation mode. In addition, Okra is able to calculate the time that has passed since it was activated and shows information about the start and end time values, as well as date. Bottom line All in all, Okra delivers a simplistic software solution for helping you time your activities and can be mastered by beginners and professionals alike. ## What's New In?

If you have a countdown timer and would like to take full advantage of it to save you time and exertion, Okra is an app for that. The program may not be powerful but is streamlined and user-friendly. Okra Features: Timer - Run a timer with digital, analog, spring or snooze alarm. Choose one of the preset timers or create your own. You can also select one of several timer displays. Time - List activities you're doing on a daily, weekly, monthly, quarterly, yearly, or cumulative basis to monitor and ensure you are using your time efficiently. Log - Record the time and duration you spend for a particular task so that you can compare tasks over time. You can use the time log for future reference. Configure - Connect to the Internet to sync your data and use your computer as a portable clock. Start - Choose to start the timer right away, log in and out, or pause or snooze the timer. Steady Note - Automatically start a countdown timer when you switch to a new app and turn it off when you close it. Pomodoro - Track the time you dedicate to performing different tasks in Pomodoro. This method follows a 25-minute short meditation cycle named after the egg-timer, also called a "pomodoro." Notifications - Set up an alarm to sound when the counter reaches a pre-defined time, such as 15 minutes, or a specific amount of time such as 15 minutes or 30 minutes. Logout - Log out of your computer when the countdown reaches a specific time. Restart/Shutdown - Program menu button on the desktop. Lock Screen - Lock your computer with one click when the counter reaches a time. Settings - A page to configure the settings of the program. Help - View the Help screen. Okra Description: Okra is a very innovative program that offers you the chance to keep an eye on how many files or folders are on your computer so that you can fine-tune your backups according to the amount of data you have stored. Okra Features: Count - Okra lets you set a limit on the number of files or folders you want to keep. For instance, when you select 10, Okra will not count
